

Teach Kids to Be

Water Smart!

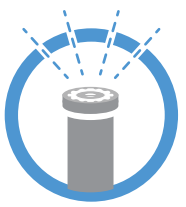

Did you know that a typical family uses as many as 85 gallons of water per person every day? Luckily, there are many simple things Californians of all ages can do to use water more efficiently and protect our precious water resources for generations to come.

Share these *water-saving* tips with kids to create responsible habits:

Use a shutoff hose nozzle when washing cars and bikes.

Reserve sprinkler play for morning or evening.

Sweep, don't spray, to clean patios or driveways.

Turn off the tap while brushing teeth and scrubbing hands.
